*Add an animated GIF to your presentations to make them dynamic and interesting.*

Objectives:

- Find an Animated GIF
- Insert the GIF into your Presentation
- View your Slide Show

### Find an Animated GIF

You can search and find animated GIFS using your go-to search engine. Be careful to use GIFS that are not copyrighted unless you pay for them. <https://tenor.com/> Additionally, here are some safe sites to grab some files. Note that some of the files on this site are free and some are not.

Search for desired animated GIF using your favorite search engine or above websites

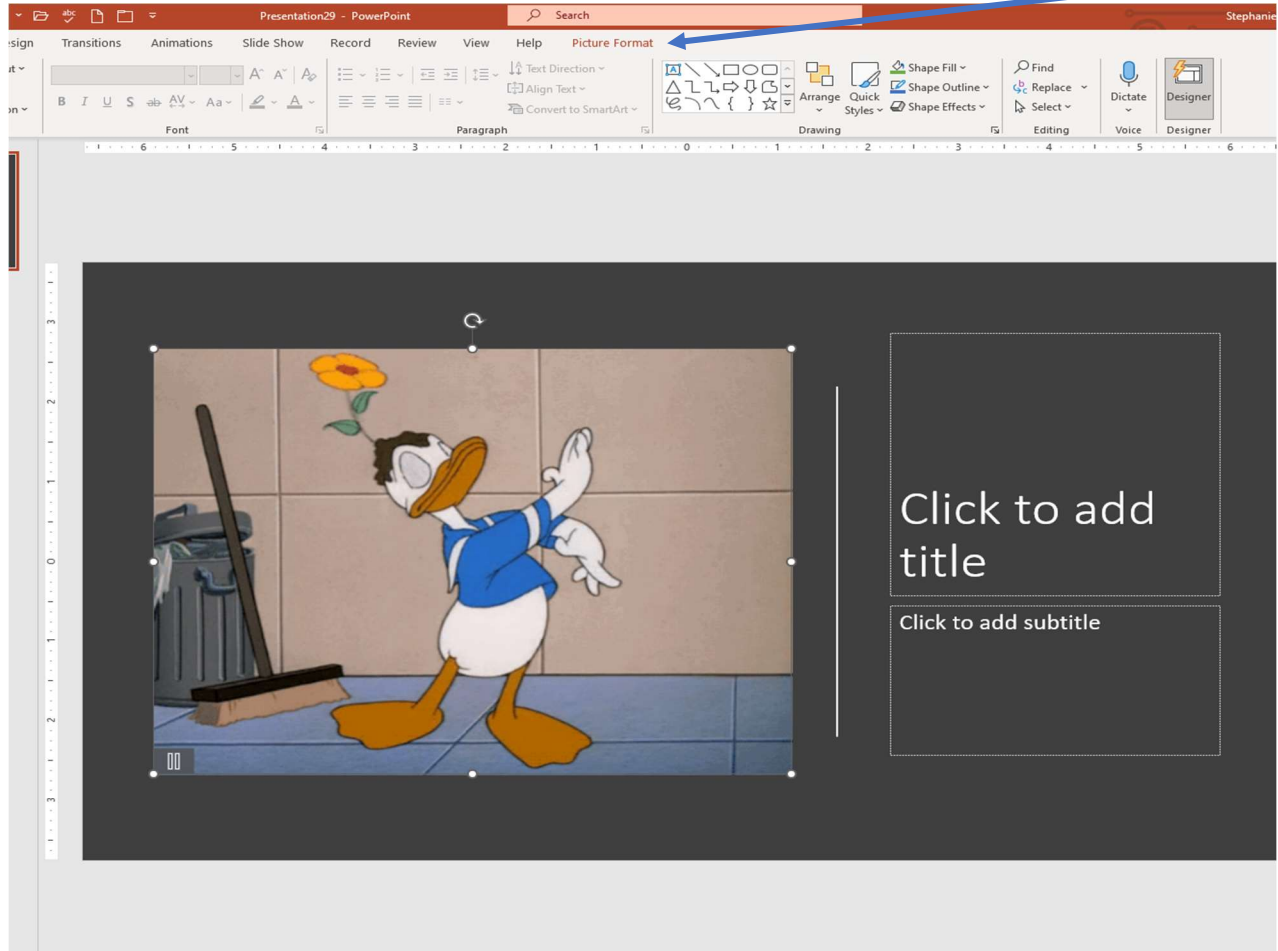

Download or Save As (right-click → Save as GIF) to desired location.

### Insert the GIF into your Presentation

1. Open your Presentation
2. Select Desired Slide in Normal View
3. Insert → Images → Pictures → This Device

4. Browse for the location of your saved Animated GIF
5. Select the GIF and Choose Insert
6. Adjust Formatting Using the Picture Format Contextual Tab if Desired

View your Slide Show
